

Software Development

- [C/C++ Developer Documentation](#)

To develop scanning applications with JoeScan JS-20 and JS-25 scanners in C or C++, use the C/C++ Developers Toolkit. Bindings for Visual Basic 6 are included as well.

API reference documentation: <http://api.joescan.com/cpp>

- [.NET/C# Developer Documentation](#)

Our Developers Toolkit (DevKit) for developing scanning applications for JS-20 and JS-25 scan heads based on the Microsoft .NET framework.

API reference documentation: <http://api.joescan.com/net/>
